

Ted Nugent wrote Joe Biden a letter via Facebook moments ago and it is going viral fast. Just in case it is censored, here it is in it's entirety.

Dear Vice President Biden,

Although I refused to listen to it, I understand that during your presidential acceptance speech, you were calling for the unity of Trump supporters. I remember four years ago my President Trump also called for unity. I remember how Congressional members of your Democratic Party responded by boycotting his inauguration. I remember how you and your Democratic party cheated and used the greatest law enforcement institution of this country to spy on my President Trump's campaign. I remember how you and your Democratic Party created a fake Russian dossier to try and impeach my President Trump. I remember how your speaker of the house ripped up my President Trump's beautiful State of the Union speech on National TV. I remember how you and your Democratic Party tried to impeach my President Trump over a Ukraine phone call. You accused my President Trump of pay to play. Come to find out Joe, it was really you and your son Hunter. I remember how you and your Democratic Party blamed my President Trump over a pandemic that he had nothing to do with. I remember how you and your Democratic Party encouraged rioting and looting of my great United States of America. I remember how you and your Democratic Party used the media to spread lie after lie about my President Trump. I remember how you and your Democratic Party stole the election from my President Trump. This Trump supporter remembers all that Joe, and will NOT be unifying with your Democratic Party. Your abject criminal dishonesty is treasonous. You belong in prison along with the rest of the Swamp.
